You are advised that the Rodenticide and/or Pesticide as indicated in the small boxes on the reverse of this leaflet have been used at your property for the treatment of pests and are approved for use in domestic premises under The Control of Pesticides Regulations 1986. However, your co-operation is requested in adopting the following general precautions to further minimise any risks to occupants and pets.

- ~ Avoid all contact by mouth.
- ~ Always wear shoes in treated areas.
- ~ Ventilate enclosed area after treatment.
- ~ Do not let children, pets, particularly dogs to have access to rodenticides/pesticides

The Pest Control Officer may advise you of other precautionary measures if found to be necessary. The officer may also answer any general questions that you may have.

In the case of ACCIDENT, contact a Doctor or Veterinarian, and show this leaflet which provides information on products used, active ingredients, manufacturer's name and telephone contact number for further information in emergencies. Alternatively, enquiries maybe also be directed to us on 01633 648494 during normal working hours or on 01495 - 762200 out of normal working hours.

You will advised by the Officer if a revisit is needed. If we do need to visit again, please could you tell us what days are best for you. If we revisit and you are out, we will leave a card for you to contact us.
