

Myavon

**I am a young person from Blaenavon,
I represent the here and now, I represent the future.**

**Lets talk about the issues of a community under
threat,
Limited funds, forgotten landscape and a general lack
of respect**

**Man's creation over 6 generations
A land made up from different nations**

**Got to make the right choices,
Be the sound of a thousand voices
Re-generation for future generations.
We're here now building the foundations**

**Be an ambassador for the community,
Cause we're nothing without unity
Got to know our history
Can't let it stay a mystery,**

I represent the here and now, I represent the future.

**There's opportunities to create a change,
Our thoughts and minds we'll rearrange,
Empowering others to use their voice,
Can make tough decisions, we have a choice**

**Become like me, an educator,
Digging through history like an excavator
Inspire and free up your imagination
Not bound by lack of education**

**Living a life through iron and coal
Through furnace blind eyes, they set their goal
Sparking like a fire, one of determination
The future improved for the next generation**

**A penny a week to build institutions
A penny a week to create solutions
A penny a week cause life's worth more
A penny a week for our ambitions to soar**

**Blood, sweat and running tears
Established us throughout the years
So never forget the sacrifice they made
Our lives are built on the price they paid**

**Oh Blaenavon, so humble and proud
Hear my cry – hear me loud
I know your worth and your place in time
I know your worth, for you are mine**

I represent the here and now, I represent the future.

**Mountains scarred, black gold ripped from within
We're moving on forward, come let us begin
The memory of a world with bigger dreams,
The futures ours – through our Doorway schemes**

**So when Cordell tells of a tale in time
I know that story, for the story is mine
World heritage running through our veins
Today, tomorrow, we still remain**

**Industrial revolutions can come and go
We're creating our own revolution, got seeds to sow
But through the memories of my mind
I'll never forget Blaenavon, its place and time**

**I'm like Ken Jones running for gold
I'm like a visionary, seeing the future unfold
I'm like Ken Jones scoring a winning try
I'm a winner, I'm looking up, and I'm aiming high**

**Blaenavon like Myfanwy, will remain in my heart
Like unbroken lovers, never to part
Blaenavon like Myfanwy, runs through my veins
Past, present and future – Blaenavon remains**

**So rise up and let us reach for the sky
Rise up and don't let an opportunity go by
Break out of your minds restrictive cage
And become an ambassador on the world stage**

I represent the here and now, I represent the future.

**My words can be plenty, my words can be few
But one thing I know – my words are true
I am Blaenavon past, present and future,
The buildings, landscape, community and nature**

**I am the future in all its glory
I am the past, for it is my story**

**My beauty
My fury
My fears
My dreams**

I represent the here and now, I represent the future.
